To the  
Premiumize.me-Team

Hamburg, January 9<sup>th</sup>, 2017

Dear Premiumize.me community,

We're very pleased to acknowledge the receipt of your donation of **3.394 €** !

Those funds will be used for research and treatment of children who suffer from cancer. Cancer is still the second-leading cause of death in children and adolescents in Germany. In the Research Institute Children's Cancer Center Hamburg we are therefore seeking new approaches to diagnosis and treatment. We want to become even more effective in combating cancer, with a faster response and more targeted treatment. Only by understanding how cancer happens on the molecular level we can develop new approaches to treatment.

Many thanks and best regards,

Susanne Barkmann

Managing Director
